

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant(s): Williams	
Application No.: 10/568,520	Art Unit: 3752
Filed: 2/14/2006	Examiner: Christopher S. Kim
Title: Dry Chemical System for Extinguishing Difficult Fuel or Flammable Liquid Fires in an Industrial Tank w/ Roof Creating Space Above the Liquid(PCT50197)	
Attorney Docket No.: 50262	
Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450	

IDS REMARKS

Applicant submits herein an Information Disclosure Statement under 37 CFR 1.97(b)(4).

Some references were cited in a communication from the European Patent Office in regard to European national stage counterpart (divisional) of the instant application, EP 09165461.6. Other references were cited in the US and UK national stage applications, US Serial No. 11/659,934 and GB 0703173.5, respectively, of PCT application PCT/US05/28946, itself a continuation-in-part of the instant application's parent international application. Applicant does not immediately identify disclosure of these references in the instant application and so submits same at this time.

No opinion is offered as to its relevancy or whether it comprises prior art. It is disclosed herein because it appears at least relevant as background and in case it is deemed relevant or otherwise found helpful to the examiner.

Respectfully Submitted,

4/7/10
